GUIDELINES TO GOOD COMPOSITION IN PHOTOGRAPHY

**ARE YOU WELL COMPOSED?
WHAT'S YOUR BACKGROUND LIKE?
YOUR VIEWPOINT? HAVE YOU GOT
NICE LEADING LINES?**

YES?

....BUT WHAT ABOUT YOUR IMAGES?!!

Come along on the 2nd and find out what makes a *photograph* stand out from the crowd. There are no fixed rules in photography, but there are composition techniques that can often improve the impact of your images.

Martin, Brian, Sue and Lloyd will be talking about the ways you can enhance your images by looking for, and making use of, things like:

- Rule of Thirds
- Balancing Elements
- Leading Lines
- Symmetry and Patterns
- Viewpoint
- Background
- Depth of field
- Framing, Cropping and Colour

Don't miss this wonderful opportunity to learn about composition from a talented group of individuals!
