Dean Robieson presents –

OFF-CAMERA LIGHTING

ENHANCE YOUR IMAGES WITH OFF-CAMERA LIGHTING

Lighting plays a key role in the success of an image. It determines the brightness or darkness of the image, and conveys mood. The type of lighting used, and the intensity and source(s) of the light all play a part in how effectively a photographer conveys his or her message.

On the 7th, our guest speaker will be Dean Robieson. He is passionate about off-camera lighting, and as a result he has a wealth of knowledge and experience in creating images that have been enhanced by the clever use of light. Dean is going to share this knowledge with us, so that we too can use off-camera lighting to make our images “pop”.

Come along on the 7th and learn something new, interesting, and very helpful.
